General Grain Policies

Revised October 21, 2019

GRAIN DISCOUNTS	All grain will be discounted on a load by load basis. Each load will be probed in order to get a representative sample. If necessary, pit samples may be taken and any load found to contain excessive variations in any grade factor will be graded per the higher grade. The current scale of discounts will apply. The seller has the option of requesting official grades by a federal grain inspector on any contested sample. The seller shall stand all costs of such grades and these grades will be final.
OPEN STORAGE	Grain delivered into an RVC facility can be held in open storage for 5 market days without incurring any storage fees. After 5 days grain that has not been sold will be considered as storage and charged applicable storage charges. The 5 day open cannot be used as a grace period to carry grain to cover a contract commitment for a future month delivery.
CASH SELLING	Grain that is delivered and sold as “spot” will be priced using the closing price at the end of the day unless otherwise specified. Other contract alternatives: Basis Contracts: Initiation Fee: 0 Rolling Fee: 2 cents/bushel per roll HTA Contracts: HTA Fee: Dec. 2019 - May 2020 – 3 cents/bu. (5,000 bushel increments) HTA Fee: Jul. 2020 - Dec. 2020 – 5 cents/bu. (5,000 bushel increments) HTA Fee: Jan. 2021 – Jul. 2021 – 10 cents/bu (5,000 bushel increments) Beyond July 2021 at buyer’s discretion; quantities may be limited Rolling Fee: 2 cents/bushel (must be priced within the same crop year)
GRAIN CHECKS	Grain checks will be issued in the name of the entity identified on the scale ticket, with any lien-holder if applicable. A Grain Transfer Authorization Form must be completed if grain proceeds are to be paid to another entity. This entity must have an approved account with RVC prior to any payment.
WAREHOUSE RECEIPTS	Grain to be stored at River Valley Cooperative will be put on a House Receipt. Negotiable Receipts for loan purposes must have 9 months of storage paid up front.
DEFER PAYMENTS	River Valley Cooperative will offer producers the ability to defer the payment on grain sold. Payment can be deferred up to 12 months.
TREATED GRAIN	Federal law prohibits commingling of treated seed with commercial grain and does not allow any tolerance for treated seed in grain. All treated seed should be kept well separated from commercial grain inventories.
GMO VARIETIES	RVC requires notification prior to delivery of any grain that contains transgenic events not approved for US export markets. RVC reserves the right to refuse delivery of grain that contains unapproved traits, as not all RVC facilities will accept varieties not approved for export.
