

Growvance™ Vital B

Levesol® chelate with Boron and Zinc

GUARANTEED ANALYSIS

GRADE 3-0-0

Total Nitrogen (N)	3%
1.5% Urea Nitrogen	
1.5% Water Soluble Nitrogen	
Boron (B)	7.5%
7.5% Boron (B)	
Zinc (Zn)	0.1%
0.1% Chelated Zinc (Zn)	

Derived from: Urea, Boron Ethanolamine, Zinc EDTA and Zinc EDDHA.

PRODUCT DETAILS

Growvance™ Vital B is a 7.5% foliar boron equipped with the patented Levesol chelate. Boron is highly responsive in row crops and is a major component in the grain development process for crops. The Levesol chelate works synergistically to increase nutrient availability and translocation into the plant.

APPLICATION DIRECTIONS

Growvance Vital B is formulated for use as a foliar or soil application in cropping systems that benefit from nitrogen, boron and zinc.

Foliar: Apply 1-4 pt/A

Soil: Apply 1-8 pt/A

*Do not apply in-furrow near the seed

Compatibility

Growvance Vital B can be mixed with many liquid fertilizers and/or pesticides. A jar test should be conducted prior to use with tank-mixes when compatibility is not known.

FEATURES AND BENEFITS

- Contains the patented Levesol chelate to enhance nutrient availability.
- Provides two critical micronutrients essential for plant development and yield.
- Easy-to-use source of boron for use in many different cropping applications.
