

# Advuance<sup>™</sup> Shield

Deposition Aid • Drift Reduction Agent

## ACTIVE INGREDIENTS

- Modified vegetable oil, refined soybean oil . . . . . 91.54%
  - Constituents ineffective as a spray adjuvant . . . . . 8.46%
  - TOTAL . . . . . 100%
- All ingredients are exempt from tolerance requirements under 40 CFR 180

## PRODUCT DETAILS

Advuance<sup>™</sup> Shield is an NPE free deposition and drift management agent specifically designed to suppress off-target drift and increase contact activity and penetration of spray applications. Improves uniformity and density of spray droplets that maximizes deposition by increasing droplet size and maintain a more uniform spray pattern.

Advuance Shield will improve the performance of herbicides, fungicides, and insecticides by increasing canopy penetration and deposition, improving humectancy and maintaining uniform droplet size.

This industry-leading formulation contains a highly refined soybean oil that improves the performance and handling properties compared to traditional oil emulsion formulations. Can be used with air assist and conventional spray nozzles.

## FEATURES AND BENEFITS

- Industry leading drift and deposition agent.
- Low 3 oz./Acre use rate is equivalent to industry standard of 4 oz.
- Made with highly refined soybean oil for enhanced performance, storage stability, and mixing.

## APPLICATION DIRECTIONS

Add Advuance Shield to the spray tank after all other tank mix partners have been added to the tank. Avoid mixing with other undiluted products in an induction cone or any other container.

- **Herbicides:**  
Ground: 3-4 oz/A  
Aerial: 2-3 oz/A
- **Fungicides and Insecticides:**  
2-3 oz/A

## CROPS

Corn, Soybeans, Dry Beans, Sugarbeets, Wheat, Barley, Sorghum, Sunflowers

PACKAGE SIZE | 2X2.5 gal | 265 gal
